SUMMARY

As a Front-end Developer, I excel in crafting engaging and responsive web applications using HTML/CSS, JavaScript, and React. My unique skill set extends beyond the front-end realm, with a good knowledge of Node.js for back-end development. My prior experience as a Technical Product Manager equips me with a deep understanding of project management, user-centered design, and the ability to translate complex technical concepts into intuitive, market-ready products. Currently, I leverage this expertise in my role as a Front-end Developer to create seamlessly integrated, efficient, and user-friendly web solutions.
